Asha Dolls

HEADWATERS RELIEF ORGANIZATION CAMPAIGN

Asha Means Hope

Little girls love dolls, but how can one doll named Asha impact their lives? Thousands of girls in Nepal and India have limited choices including the opportunity for education.

They are at high risk for child marriages, bonded labor and sex trafficking. By creating the Asha doll combined with an educational campaign, nonprofit Headwaters Relief Organization is reaching out to help these girls feel more confident about themselves and their futures. With your support, volunteers will provide educational training and materials and personally distribute Asha dolls.
